📷 @fesri_haris

I am a Information Technology Education graduate with working experience in research projects as well as in the private sector.

S.Pd.
Information Technology

as latest degree from
University of Brawijaya

And I am always looking for new exciting and interdisciplinary projects worldwide.

EXPERIENCE AND EDUCATION

2021

— Experience — Events — Education

SKILLS AND TECHNOLOGIES

The biggest part I contribute to my work is in the area of software development.

Research · Social Startup · Projects · Design · Development

LANGUAGES

🏳 Bahasa (native)

🏳 English (c1)

HTML/CSS
Python
Java
Kotlin
MySQL
LaTex
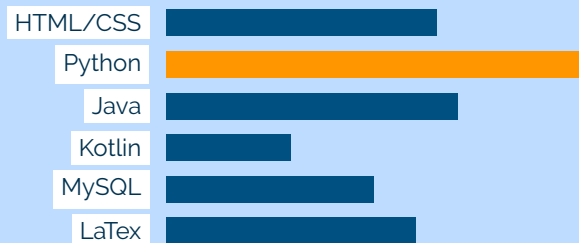

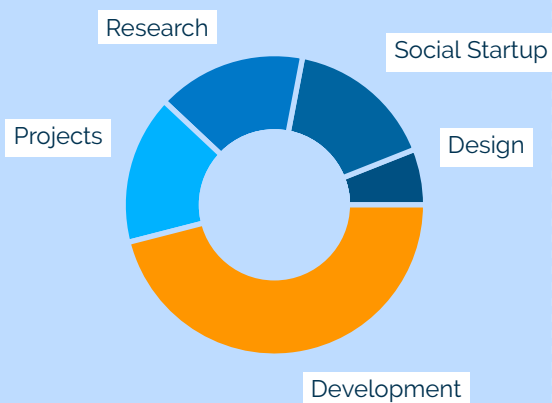

Currently, I develop realtime apps with Kotlin and Python for implemented Machine Learning.
Formerly I worked with Java and Python.

I am using Git and IntellijIDEA tools regularly for my dev projects.

Pycharm Netbeans VSCode Git AndroidStudio

ACTVITIES
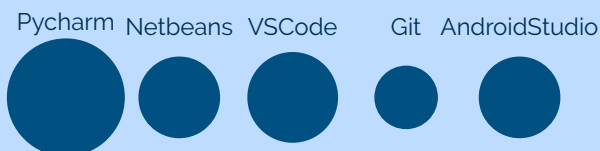

2 years

of participation at
Kaggle

In my freetime I read lots of news and help others on my Social Startup. Reading some books or due to bodyweight training I can keep my body and mind in balance.
